XTL med power trunk mount
XTL-5000 high power

PM-1500

Use CAB-00247B

Click on the plus sign on the **Radio Configuration**

Go to the Radio **Wide selection**

Select the **"TX Audio Per Mode"** tab

In the "**External Mic**" section in the middle of the page, uncheck all 3 of the AGC boxes

On the right side, set the **"Analog Fixed Gain"** to **+12 db**

On the right side, set the **"Digital Fixed Gain"** to **+12 db**

On the right side, set the **"Securenet Fixed Gain"** to **+12 db**

Go to the **Advanced** tab, the **"AUX PTT Audio Source"** should be set to **"AUX_TX".**
